American public space, rebooted: What might it feel like?

By **TED ANTHONY**
AP National Writer

And the American people returned to the American streets, bit by bit, place by place.

And in the spaces they shared, they found a world that appeared much the same but was, in many ways, different — and changing by the day.

And the people were at turns uncertain, fearful, angry, determined. As they looked to their institutions to set the tone, they wondered: What would this new world be like?

The choppy re-engagement of Americans with public life over the past week, with more to come as cries

to “reopen the country” grow, means a return to a shared realm where institutions of all types form the shape of American life.

Yet can you reopen a society — particularly a republic built on openness and public interaction — without its physical institutions at full capacity, without public spaces available for congregation?

“Humans are just terrified of other humans right now. They just don’t feel confident about each other,” says Daniel Cusick, a New York architect who has worked on public spaces for three decades.

E punto aki tabata un preocupacion cu minister Lopez-

Tromp a elabora durante e tratamiento di e presupuesto di DOW diahuebs ultimo. E mandatario a señala cu hopi ciudadano ta sinti necesidad pa bin cu sleeping police dilanti di nan cas, ya cu hende ta core duro dilanti di nan cas, creando situacion peligroso

Tin un schedule di implementacion di e sleeping police cu ta uno largo, ya cu e lista di deseo ta grandi. Nan ta den diferente area manera Sabana Basora, Jaburibari, Papayastraat, Wayaca, Seroe Blanco, Piedra Plat y diferente area den playa, entre otro.

Sector di construcccion ta re inicia

Material di construcccion y trahado no mester ta importa

ORANJESTAD- E siman aki e sector di construcccion ta bay re inicia nan trabao cu un serie di rekisito cu e companianan mester cumpli cune den cuadro di e crisis di coronavirus.

Nan ta restaura nan operacion despues cu nan a keda suspendi mas cu un luna largo, ora cu a wordo decreta e medida di shelter in place y nan a cay den e lista di no esencial.

Pero tambe nan tin un lista

di proyecto nobo cu el a yam'e como 'proyectonan potencial' cu Aruba por inicia cune. Sinembargo tin un serie di condicion mara na nan, entre otro cu e material mester wordo cumpra localmente pa evita cu divisa por a bay afo.

Pero tambe e trahadonan mester ta local y no trahadonan importa. Esaki considerando e hendenan cu a perde trabao. E mandatario ta haya mas cu husto cu esun naci na Aruba lo ta e prome yama pa haya trabao bek.

Scol no lo habri mas 11 di mei awor

ORANJESTAD - Scol no lo habri 11 di mei awor y seguramente e no lo habri mas pa lora ta resta di e aña escolar aki debi na e crisis di coronavirus/COVID-19.

"Pa resumi 11 di mei scol no ta habri," asina minister di Enseñansa, Ciencia y Desaroyo Sostenibel, Rudy Lampe a declara ayera. El a agrega cu scol lo bay keda cera te proximo aviso.

Pues mayornan ta bay ta na cas y muchanan tambe ta bay ta na cas, el a bisa. Igualmente el a laga sa cu educacion a distancia ta bay ta parti di e nor-

malidad nobo. Minister a bisa cu nan lo anuncia pronto con e ta bay ta structura. Pero for di awor nan kier pa tur nos maestronan y nos tur por ta prepara, ya cu e desaroyo di inteligencia digital ta bay ta fundamental den e normalidad nobo.

El a bisa cu parti di e normalidad nobo tin di haci cu e muchanan ta bay ta mas na cas y menos na scol. Y seguramente nan lo mester keda bao e guia di e mayornan, pasobra un scol importante ta bay bira bo hogar, caminda e muchanan por siña masha hopi mes di nan mayor, segun e mandatario.

Mester cuminsa implementa protocol pa normal nobo na tur compania y negoshi

ORANJESTAD - Awe den oranan di atardi, Gobierno di Aruba a ofrece un conferencia di prensa den cual a papia tocante e normal nobo, cu ta cuminsa awe pa supera e crisis di Covid-19. Ademá SVB a duna di conoce e guidelines cu negoshinan mester implementa pa comunidad cuminsa adapta na esaki.

Dr. Myron Genser di SVB a trece dilanti cu varios compania, negoshi y sector lo cuminsa habri bek pa trahadonan na pia di trabou, pero esaki tin algun condicion, manera medidanan preventivo relaciona cu distanciamento social (fisico) y medidanan di higiena. Esaki ta e condicionnan cu SVB, Gobierno di Aruba y otro partner a pone como minimo pa cumpli cu cada trabou, cu ta conta pa tur hende y lo wordo controla. E trahadonan y doñonan di trabou mester tin responsabilidad pa cu esaki.

Di mesun manera, el a informa cu esey ta forma parti di un protocol cu ta drenta na vigor desde awe y cu tur dunado di trabou mester sigui. Por haya e protocol aki den cuatro idioma riba e website di www.arubacovid19.org. E implementacion di medidanan ta keda bou responsabilidad di e doño di trabou, trahadonan y esunnan cu ta bishita e luga. Ademá Genser a menciona cu ta bay tin un task force pa controla cu cada empresa ta cumpli cu e medida aki y den caso cu no cumpli, e task force lo obliga di instrui pa nan cera.

Genser a expresa cu e tres punto riba cual lo concentra mas riba ta garantiza e distanciamento social, garantiza e bon higiena na luga di trabou y na cas, di ultimo e parti cu ta relaciona cu empleadonan of clientenan malo riba tereno di trabou.

E medidanan pa garantiza distanciamento social tin di haci cu 1.5 meter di distancia entre personanan. Cada compania mester tuma e medida aki y mester zorg pa empleadonan tambe por traha for di cas of si por implementa orarionan flexibel.

Tambe, Genser a indica cu doño di trabou mester coloca borchinan of indicacion

como flecha na vloer pa tene den cuenta e distanciamento social, tambe mester tene na cuenta cu e fluho di persona den e compania.

Di mesun manera, el a menciona cu companianan por retira, separa of proteha e mueblenan manera mesa, stoel y banki, tambe reemplaza reunionnan fisico mas tanto cu ta posibel y haci e di manera digital, si den caso esey no por ta posibel tuma cuenta cu distanciamento y haci un lista di esunnan cu a asisti pa e reunion pa motibo cu si mester haci un contact tracing e lo por bira mas facil pa DVG y asina wak ken tur tabata den reunion.

Di loke ta trata negoshinan, nan mester limita e cantidad di bishitante teniendo na cuenta e distancia social, asina como tambe e bishitante cu no ta tene nan mes cu e medidanan nan lo wordo pidi pa bandona e organizacion of tereno di e negoshi inmediatamente.

Si un persona ta presenta sintomanan di grip of di Covid-19 mes no lo wordo permiti pa drenta den e negoshi y si e personal ta ripara cu un cliente tin sintomanan tambe por pidi pa e cliente lo bandona e luga.

Di loke ta trata medidanan pa garantiza higiena, Genser a bisa cu cada dunado di trabou mester promove esaki tambe den clientenan y trahadonan, tur superficie como lessenaar, obheto riba dje como telefon, keyboard, etc mester wordo limpia cu desinfectante regularmente por lo menos dos biaha pa dia. Genser tambe a declara cu dunado di trabou mester coloca hand sanitizer na entrada di e compania y luganan cu trahadonan ta frecuente mas, promove labamento di man corecto, asina como tambe evita mishi cu wowonan, boca of nanishi.

Pa finalisa, Genser a splica cu cualkier empleado cu lo haya problema di respiracion lo por comunica cu su dokter di cas inmediatamente, ademá el a manifesta cu SVB lo duna sosten pa empresanan pa loke ta trata training riba protocol, tambe facilita checklist pa e doño di trabou por zorg pa tin y lo sigui tin tur cos na su luga pa facilita e implementacion y monitor di e protocol.

Critica aumentando riba proyecto FASE

ORANJESTAD - Mas y mas critica ta yegando na redaccion di Bon Dia Aruba di personanan cu a solicita riba e website disponible di e proyecto FASE, pero cu no a haya contesta, y por lo tanto tampoco pago di e promesa suma di apoyo di e proyecto.

Di banda di e proyecto y e ministro responsable a duna

di conoce cu un gran parti di esnan cu a solicita, tin problema di diferente tipo cu ta stroba nan yega na un conclusion final den e comision cu ta atende e casonan. Ta menciona por ehemplo cu den hopi caso no a entrega tur documento y cu esaki ta un requisito indispensable pa por haya e subsidio. Tambe ta muestra riba e hecho cu e confirmacion cu un persona haya cu ta bisa cu e ta registra, no

ta implica automaticamente cu tur cos ta na orden y cu e proximo paso lo ta e otorgamiento di e subsidio.

Hasta si tur documento ta presente, y e comision di evaluacion ta aproba e solicitud, ainda mester tuma lugar e proceso di aprobacion, unda tur e instancianan involucra den e control, esta SVb y departamento di Asunto Social, y finalmente departamento di

Finanzas pa haci e pago riba e cuenta di banco referi.

Di parti di coordinadora di e proyecto, sra. Sabine de Groot, redaccion a bin comprende cu no ta asina cu tur caso a keda trata; tin hopi den proceso ainda cu, segun nan keda aproba, lo haya nan pago via nan cuenta di banco den e simannan venidero.

Telefon

Varios persona a duna di conoce tambe cu nan a purba yama e number di telefon 2800707 pa por comunica cu un persona cu ta atende e peticionarionan, pero cu ta casi imposible pa haya contacto di e manera aki.

Redaccion di Bon Dia Aruba a haya pa mira e documentacion di varios caso cu a entrega, por lo visto, tur documento requeri y a haya confirmacion via e website cu nan peticion a keda aceptada. Naturalmente nos no por mira kico por tabata un obstaculo mas leu den e proceso, den e control por ehemplo di e dunador di trabao na SVb. Den e casonan aki ta trata di hende cu no a tende nada pero tampoco a haya placa riba nan cuenta bancario te ayera, 4 di mei.

Nota di redaccion:

Un di e preguntanan cu nos tin como Bon Dia Aruba, ta si tur hende ta haya algun comunicacion ainda di banda di e proyecto FASE. En principio tur peticion haci na gobierno mester haya un contesta dentro di e termino indica pa esaki. Segun nos opinion esnan cu a haci un peticion via e proceso aki, tin derecho riba un contesta, tambe den caso di un contesta negativo, pasobra, manera tur peticion na gobierno, e negacion aki ta habri caminda pa nan apela nan caso den cuadro di ley LAR, cu mester keda trata segun e procedimiento stipula den e ley menciona. Si dentro di e periodo stipula pa LAR, no a haya contesta, ta habri e posibilidad pa apela e decision ficticio, e asina yama 'fictieve weigering'.

Robert X: Mi mester yuda mi mes, mi no ta conta cu FASE...

ORANJESTAD - Redaccion di Bon Dia Aruba, manera bisa den e articulo acompañante, a papia cu varios persona tocante nan experiencia (no positivo) te awor cu e proyecto FASE. Un di nan, di ken nos a mira tur documento necesario, tabata dispuesto di duna nos un entrevista, bao garantia di anonimato. Nos a dun'e e nomber Robert X cu e proposito ey.

"Mi a perde trabao na mitar di maart, ora cu e hotel na unda mi tabata traha via un

uitzendbureau, a kita den un solo tiro tur hende cu tabata traha eynan via e bureau ey. Mi tabatin un luna ta traha eynan, cu e incertidumbre caba cu trabao di e forma aki ta trece cune. Pero mi tabatin basta tempo cu mi tabata busca trabao vast, desde cu mi a perde mi empleo anterior na otro compania. Mi speranza tabata cu via e trabao temporal aki, mi por a haya despues un trabao vast na e hotel, pero e crisis aki a dicidi otro. Na cuminsamento di april mi a yena tur cos y a aplica, y a carga speranza cu na fin di april sikiera mi por a haya algo pa

combati mi gastonan di luna, pero nada."

BDA: "Con bo situacion na cas ta? Cuanto boso ta pa biba di cuanto, awor?"

Robert: "Nos ta tres den cas, mi casa y ami, y un yiu di mi casa cu ta bay scol ainda. E unico entrada cu nos a keda cune ta esun di mi casa, cu ta gana poco mas cu salario minimo. Pa colmo algun tempo pasa nan a corta su salario malamente na e lugar unda e ta traha, y Labor a haci net nada pa nan. Esey so nos tin anto, y no ta yega pa paga

cas, luz, awa, cuminda, etc."

BDA: "Y kico bo ta haciendo mientras bo no haya nada di FASE?"

Robert X: Mi no ta custumbra sinta warda te ora golpi coy mi curpa. Cu algun hende cu mi conoce nos ta haciendo un par di job cu ta pone algo riba mesa. Pero manera bo sa, den e situacion aki no tin tanto hende cu mester di un persona pa drecha algo na nan cas o cura. Ademas tin un monton di ilegal cu tambe a keda den preta, cu ta competi den e tipo di trabao aki. Y ya bo sa, control di gobierno

riba e cosnan aki, nunca."

BDA: "Y si finalmente bo no haya nada di FASE, con ta haci?"

Robert X: "Wel, loke m'a bisa bo caba; si mi no haya nada, nada no a cambia pa mi, pasobra mi tin basta tempo den e situacion aki caba. Ta na ultimo e trabao ey a bin salba mi, pero pa un luna so. Segun por, nos ta traha, dia tin, lo tin. Dia cu no tin, nos ta wak kico ta come. Mi no a yega na mi edad (52) pidiendo niun gobierno nada; mi no tin pakico di stens riba nan awor tampoco."

Libertad di prensa...

Nos tin o no tin...?

Libertad di prensa, o prensa liber? Con cu nos bir'e, algo sumamente importante, sigur riba un dia manera diadomingo pas, unda a celebra Dia Internacional di Prensa Liber. Algo cu cerca nos casi nunca ta haya atencion, tambe pasobra nos ta celebra cu mas atencion Dia Internacional di Prensa dia 1 di september.

Poniendo fechanan un banda, ta importante pa nos como prensa, y e lectoran tambe, reflexiona de vez en cuando riba e importancia di prensa liber. Lo tin hopi di nos cu lo bisa cu esey den nos sistema, cu nos legislacion Hulandes, no ta tanto un problema. Constitucion ta garantisa nos tur esey, toch? Si, esey ta berdad, pero den practica ta parce mas facil cu e ta en realidad.

A primera vista nos lo bo bisa tambe, cu nos tin e cosnan aki garantisa. Sin embargo, e problema no ta bin solamente di e banda di garantisa periodista cu nan por eherce nan trabao, sin obstaculo di censura, por ehemplo. Normalmente lo nos no mira un periodista aki den prison pasobra el a haci uso di e derecho di busca y copia informacion pa despues publica. Nos no ta papia tampoco di caso unda un periodista ta posiblemente involvi den algun delito. Esey ta algo cu autoridadnan hudicial lo mester atende segun e poder y obligacionnan cu nan tin. Si nan no ta haci esey bon, anto esey tambe ta bira tema pa prensa atende. En principio ey no necesariamente a crusa un linea violando derecho di prensa liber.

Sin embargo, esey no ta e unico manera pa obstaculisa prensa den nan trabao. Pa cualkier gobierno, y esun(nan) di nos no ta parce di ta excepcion, tin otro metodo pa atende esaki, na un manera efectivo y sin tanta protesta. Esey ta e manera con ta percura pa prensa no haya informacion, cu den un gobernacion transparente y integro si mester ta disponible. Aki ta unda prensa mes mester siña actua mas uni y fuerte, pa exige cu ta cumpli cu exigencianan di informacion adecua y completo, sin importa e color politico di e gobierno di e momento ey. Y ta aki unda nos ta mira cu prensa en general, pa gran mayoria, ta fayando keto bay den exige e transparencia aki.

Un ehemplo: Maneho y cifranan economico-financiero di varios entidad publico, incluyendo nan relato y cuenta anual, no ta 'publico' sino secreto, di tal manera cu prensa en general no por informa publico na un manera obhetivo. Kico ta pasa anto? E periodista cu ta 'acopla'

cu e gobierno di e momento ey ta haya informacion, pero manera bisa 'on a need to know basis'. E periodista sin color politico o esun cu e color robez no ta haya nada. Cu consecuencia cu nunca ta haya apoyo di esun bon conecta pa exige cu ta bin mas transparencia den gobernacion, cualkier cu ta, den e tipo di asunto aki. Cu consecuencia cu prensa ta muestra nan mes dividi, y no ta actua 'en bloc' pa defende e derechonan di e gremio y tur cos ta keda na e nivel oportunista di 'kico ami ta logra haya pa mi mes'.

Awor bon, nos ta mirando nacemento di un asociacion di periodista cu, segun nos por supone, ta bay tuma e tarea di defende e interesnan general aki. Nos ta tuma esey como un señal positivo cu prensa den e comunidad aki ta birando mas consciente di e papel importante di prensa, y cu tin momento cu un organismo defensor di prensa mester por bin dilanti pa haci esaki, y cu no ta keda manera den pasado, cu ta 'cada ken pa su cuenta'. Ta importante si pa nos realisa cu esaki no ta nada mas cu un promer paso.

Lo sigui paso mas dificil cu e entusiasmo inicial, hustamente ora mester tuma posicion den asunto cu ta dividi prensa segun nan propio pensamiento politico o ideologico. Ta importante cu e asociacion ta conta cu personalidadnan fuerte cu sa di keda enfoca riba e tema a base di e interes comun, y no ta opera primeramente a base di nan mes color o opinion politico. Un 'mission impossible' anto? Sigur cu no, nos ta kere cu nos ta conta cu suficiente hende di calidad den prensa cu por garantisa e posicion corecto di e asociacion na tur momento.

Sin embargo, e tarea den e tempo di crisis aki a bira mas pisa ainda pa prensa. Cu menos recurso cu antes, ainda ta spera di tur cu nan ta haci nan trabao segun normanan di calidad. Esey ta pone presion financiero riba tempo y personal disponible, pa logra trece noticia di calidad pa e comunidad, cada ken cu su specialidadnan. Tambe nos mester ta consciente di e hecho cu e problemanan na e otro banda, di esnan cu ta kere cu ta bon pa publico haya lo menos informacion posible, no a cambia ni bira menos grandi. Entre reconoce e derecho general di liber expresion y actua tambe segun e interes ey, no ta algo automatico. Ta den practica di tur dia mester bringa esey, tambe haciendo uso di e posibilidadnan legal pa exige transparencia. Nos ta keda pendiente.

Colombia: Corupcion y trafico di medicina memey di pandemia

BOGOTA (Infobae) - Na Colombia, corupcion ta sigui como e pandemia mayor. Na seis siman cu a decreta emergencia nacional pa e pandemia di coronavirus, e irregularidadnan den contractnan na departamentonan y municipio di Colombia, cu ta destina recursonan miyonario pa programanan cu supuestamente ta dirigi pa disminui e efectonan di COVID-19, a zona alarma di organismo

di control na tal nivel cu a crea e strategia "Transparencia pa Emergencia".

Esaki ta un trabou cu nunca a wordo haci na e pais entre Contraloria, encarga di seguimiento fiscal y Procuraduria, cabes di Ministerio Publico cu ta sanciona e funcionarionan, tambe e Fiscalia, ente acusado, pa haci seguimiento di e casonan posibel di corrupcion y aplica sancion pa esunnan cu lo horta placa publico. Te awor, e organismonan di control Colombiano tin den investigacion 56 contract cu ta suma 136 mil miyon peso (mas di 35 miyon dollar), cu ta concentra e mayor irregularidad cu a wordo identifica,

pero den total e obhetivo ta pa revisa 31.938 contract cu a respalda den tempo di Emergencia Economico na tur teritorio nacional.

Di acuerdo cu e Procuraduria, tin 24 proceso disciplinario habri na 14 gobernacion di e pais, di cual 8 tin varios gobernador involucra, otronan cu ta den e mira pa haya un proceso y funcionarionan publico di e entidadnan cu tambe ta den e mira. Na varios alcaldia tin 70 caso na 56 municipio, y na entidadnan di orden nacional tin 24 expediente, un di nan contra e minister di Agricultura y Desarrollo Rural, Rodolfo Enrique Zea Navarro,

pa presunto irregularidad den e Linea Special di Credito di Colombia Agro Produce, crea pa Gobierno Nacional pa duna contesta pa e emergencia sanitario.

Na Cesar y La Goajira, departamentonan bisina ubica na nort di e pais den e zona frontera cu Venezuela, nan ta comparti den e marco di e pandemia no solamente problemanan di cual awendia nan gobernador tin cu presunto irregularidad di contractnan di ayuda humanitario pa atende coronavirus, sino tambe ta e centro di un aumento di trafico di medicina di contrabando, cu ta aumento den tempo di crisis.

Latino America a cuminsa prepara pa sali di aislamiento

(France24) - Mei lo por ta e luna clave pa reactivacion di e region. Aunke mayoria di e paisnan di Latino America te ainda no a cuminsa habri nan negoshi ni ta permiti pa scol habri bek, manera a sucede na Asia y Europa, poco a poco e Latinonan ta cuminsa prepara pa retoma nan bida tal como nan a conoce lunanan atras.

Den e sistemanan federal di Brasil y Mexico, cada estado tin un margen grandi di maniobra pa dicidi con y ki ora lo permiti pa negoshinan habri bek y trahadonan bay traha. Na Argentina e apuesta ta pa e municipio mas chikito pa lo por cuminsa desde awor

su normal nobo, mientras cu na Colombia a wordo permiti e regreso di algun sector economico den un intento pa salba e finansanan nacional sin empeora e salud y Chile lo pone traha prome e empleadonan publico.

El Salvador ta un caso particular pa motibo cu no solamente a extende e cuarentena, sino cu ademas Gobierno tin tension cu e poder Legislativo y Hudicial pa e medidanan cu Presidencia a tuma.

Di Argentina, e pais a wordo supera mas di e mita di e plan pa enfrenta e coronavirus, asina a sigura Gobierno di Alberto Fernandez pa motibo cu segun calculonan oficial ta apunta cu Argentina ta den e fase tres di cinco, yama seg-

mentacion geografico.

Na Brasil, e aumento di tension na politica pa impone of aislamiento total awor a wordo hiba te reactivacion economico. Desde e aclaracion di estado di calamidad publico, 20 di maart, presidente Jair Bolsonaro a bisa cu ta necesario cu trahadonan sigui bayendo na nan trabou pa economia no collapse.

Mientras e Gobierno Federal tin plania con por bolbe na normalidad, e estadonan cu mas ta nenga pa habri e comercio bek, asina ta sosode na Rio de Janeiro, ora e gobernador Wilson Witzel a wordo contagia di e virus y na Amazonas cu tin e pio crisis sanitario di e pais.

Na Mexico, desde mita di luna di maart, e gobernador di por lo menos 8 estado a decreta aislamiento social den su teritorio y a critica e falta di accion di parti di e mandatario Andrés Manuel López Obrador. Poco dianan despu-

es, 30 di maart, Gobierno Federal a decreta emergencia sanitario y a aplica tres restriccion grandi pa tur Mexico: prohibicion di aglomeracion, paro di actividadnan no esencial y recomienda e "limitacion boluntario di movilidad".

Pandemia ta golpia casi 2.000 profesional di salud na Mexico

CIUDAD DE MEXICO (ElPais) - Den ultimo siman, e noticianan riba plamamento di COVID-19 na hospitalnan a yena e prensa na Mexico,

especialmente pa señalamiento di falta di insumo medico y preparacion pa e pandemia.

Mientras e virus ta multi-

plica, e pregunta di fondo ta si e sistema sanitario maltrata di e pais lo por soporta e peso di e emergencia. Na Hospital General di Tijuana, cu ta depende di Gobierno estatal, tambe a haya casonan confirma entre dokternan, enfermero, trahadonan auxiliar y personal di servicio general.

"Ta hopi factor pa cada hospital, pero mi ta kere cu ni un institucion na mundo cu por ta prepara pa un pandemia asina", Francisco Cisneros, dokter di Hospital General Regional 20 a bisa, otro centro medico na Tijuana cu dos siman pasa tabatin por lo menos 24 trahadonan contagia. E luga aki ta pertenece pa Instituto Mexicano de Seguro

Social (IMSS), e red publico mayor di su tipo na e pais y cu ta den e mira pa motibo cu ta agrupa e cantidad mayor di casonan entre su empleadonan.

Cisneros, cu un trayectoria di 24 aña na IMSS, ta señala e scarsedad di personal y materialnan, e falta di criterio pa su distribucion, e protocolo mal aplica, retraso tecnologico y e fayonan di infraestructura como punto determinante pa Mexico. Tijuana, ademas ta un di e cinco punto di e pais cu saturacion hospitalario pa e pandemia. "Tur e presion ta cay den e poco hospitalnan di e ciudad y desde siman pasa tin un saturacion grandi, aunke no na nivel di

otro paisnan", Cisneros a comenta, un di e fundado di e campaña Por Tijuana Sano, cu ta busca donacionnan di e ciudadanonan pa enfrenta e sobre prijs y pirateria di insumo medico.

"Nos no a compronde caba e necesidad di no sconde e realidad" Enrique Mendozas ex-presidente di Asocion Nacional Mexicano di Bioetica", e 1.934 caso ta un segmento so di e dokternan y enfermero cu ta infecta y ta hopi probabel cu e cifranan aki ta subestima, igual cu e cifra total di persona contagia", el a agrega, aunke autoridnan sanitario a defende cu e contagio di dokternan y enfermero ta den e parametro di otro paisnan.

Cuba: Cifranan Coronavirus mehorando pero economia no

(CiberCuba) – Autoridadnan di salud di Cuba a comunica ayera cu a yega na e cifra mas abao di caso nobo di coronavirus den un luna, 19 persona, cu ta pone e total di persona cu a test positivo pa Covid-19 na 1.668.

Ministerio di Salud Publico a duna di conoce cu te diadomingo 3 di mei, 69 persona a fayece a causa di e virus, y 876 pacient a keda declara recuperado. Tin 721 caso di coronavirus activo ainda, di cual 712 ta stabiel, tres pacient ta den estado critico y seis ta den estado grave.

Mientras e cifranan di e campaña contra Covid-19 ta muestra relativamente bon, e situacion economico ta muestra otro. Consejo di ministro a confirma e crisis economico cu ta castigando Cuba, y a reitera medidanan ya anuncia den varios mesa rondo. Tambe presidente Diaz-Canel a anuncia cu ta acelera algun reforma, segun e corant di partido Granma.

Alejandro Gil Fernandez, ministro di economia a ripiti e mal noticianan cu ta persigui Cuba desde septem-ber 2019 y a anuncia algun

cambio den presupuesto di e aña aki cu e meta di spaar, priorisa produccion nacional y exportacion, pa amortigua e impacto social riba e Cubanonan empobreci, segun e reporte oficial di e reunion di diadomingo pasa na Habana. E ministro a lansa un

aviso cla: “Un economia cu cero turismo, y intensificacion di e bloqueo Mericano, no por sigui traha normalmente,” y a anuncia un reduccion di gasto pa sali di e crisis, contradiciendo presidente Diaz-Canel, cu a critica e ‘ultraliberalnan’ y a elogia e

Sigui duna Mama e respet, amor, aprecio y cariño cu e merece. E luna di Mei aki ta hopi special pa Lady Ruth, cu a bira Mama pa di prome biaha den e luna di mei di aña 1978 cu su prome prins Regnier y dos aña despues su di dos prins Jean. ‘Industria petrolero ta plat, pero Prome Minister ta bay habri refineria bek’

ORANJESTAD - Diahuebs den oranan di anochi, Prome Minister Evelyn Wever Croes ta declara na prensa cu el a caba di firma e acuerdo cu CITGO pa terminacion di e contact cu tabata vigente y a menciona cu tambe a firma Minister di Finansa Xiomara Ruiz Maduro y Minister Marisol Lopez Tromp.

Un logro segun Prome Minister hopi grandi, cu a tuma hopi esfuerzo segun su persona.

“Ora cu pueblo scucha Prome Minister Evelyn Wever Croes papia, tur hende por comprende ta dicon gobierno di Hulanda ta actuando manera cu el a bin ta haciendo cu gabinete Wever Croes, pa loke ta maneho di 1.3 biyon florin cu a wordo pidi como ayudo.

Sigur ora cu e Prome Minister a keda sumamente contento cu un schikking di 17 miyon di dollar cu Citgo. Pues e compania Mericano biyonario no a paga ningun cen preto mas, a bay sin keda

responsabel pa desmantela y haci e tereno limpi, caminda Aruba lo mester a haya mas cu 300 florin di garantia pa incumplimento di contract di Citgo.

Sinembargo no ta esey so kisas ta stroba Hulanda di no confia gobierno di Evelyn Wever Croes pero ora cu e bin dilanti y bisa cu tin “hopi” interes pa lease e tankinan na San Nicolas y cu dentro di un luna lo caba di inspecciona e tankinan y “nan” lo cuminsa manda crudo pa Aruba, e situacion ta bira mas serio ainda.

Ta kende por fix crudo den un luna di tempo sabiendo tambe e situacion deplorabel di e terminal na Zeewijk. Tur esaki ta duna e impresion cu tin un fixmento formal caba palabra cu anticipacion, sin cu pueblo of parlamento sa di esakinan ya cu den un periodo cu industria petrolero ta practicamente plat, ya caba tin crudo cu lo yega Aruba den un luna di tempo. Esaki ta un fantasia increibel y un aventura irresponsabel di parti di Prome minister Evelyn Wever Croes!!!

Kico mas ta confirma cu ya caba tin gruponan particular cu a regla tur cos pa nan haya for di gabinete Wever Croes e tankinan, ta e hecho cu segun Prome Minister Evelyn “entrada cuminsa drenta cu ta wordo calcula na 4 pa 5 miyon florin pa luna si logra verhuur tur e tankinan.”

Esaki simplemente ta duna e impresion cu cosnan ta regla caba, cu ta p’esey tur e desaroyonan rond di Citgo durante di pandemia di covid-19 ya cu gruponan yega na gobierno di Prome Minister, tabata insisti pa yega na e areglonan aki, den un periodo cu gobierno a impone toque de queda y shelter in place. Atrobe por remarca cu aki tin cosnan hopi straño ta tumando luga!

Medidanan cu a paralisa henter e pais, henter pueblo pero caminda si no a paralisa negociacionnan asina rapido cu gruponan interesa den e tankinan di e refineria.

Loke sigur ta hopi tristo y aki tambe nos ta kere ta confirma di con Hulanda no por confia gobierno di Evelyn ta caminda e ta declara cu e di

dos trayecto importante den e terminacion di e contract cu Citgo, ta reapertura di e refineria.

Negoshi di petroleo ta plat, prijs di petroleo ta na suela, cu excepcion aki na Aruba caminda pueblo no ta haya combustibel barata pa produccion di awa y coriente debi na hedging di gobierno di Evelyn pero e Prome Minister tin cu curashi di sinta declara na pueblo cu e ta trahando na reapertura di e refineria cu el a caba di firma pa e cera definitivamente. Algun siman caba tabata conoci cu e lista di 25 companianan interesa ya a bira un lista di 4 compania so, cu ainda ta hopi dudoso.

Si ey bou no tin cosnan “fishi” tumando luga anto simplemente Aruba tin un Prome Minister cu simplemente ta experto den manipulacion di tur loke e haci. Prome minister a actua contra interes general di Aruba cu ningun base huridico y a laga Citgo bay cu un regalo di 300 miyon florin,” Parlamentario Mike de Meza a declara.

Parlamentario Alan Howell (POR):

‘25% ta loke mi a propone for di ‘day one’ y awe e ta un realidad aproba unanimemente’

ORANJESTAD - Parlamentario Alan Howell a comenta riba e resultado final di e reunion publico pa loke ta trata e presupuesto di Parlamento.

El a indica cu esaki a dura mas largo cu loke tabata planea. Howell a presidi e reunion aki mirando cu Presidente di Parlamento ta alabes presidente di e comision di Asuntonan Interno di Parlamento y como tal no por presidi e reunion publico.

Alan mester a schors e reunion na prome instante pasobra Gobierno a manda un carta cu tabatin di haber cu e tratamento cu nan tabata atendiendo y e kier a duna e parlamentarionan e oportunidad di pasa riba dje y pa por a scucha for di Comision di Asuntonan Interno kico nan ta pensa riba e carta. Igualmente el a comenta cu

tabatin un diferencia di opinion entre lider di fraccionnan riba con e amienda ta wordo traduci huridicamente. Howell a indica si cu e discusion cu tabatin tabata uno sano, intercambio di opinion entre e diferente lider di fraccionnan y cu comprension mutuo. Mirando cu e cambio aki riba salario tin consecucionan legal y mester ta den cuadro di ley a busca expertonan financiero rond di 5or di atardi. Despues di a haya splicacion for di nan, Alan Howell a continua cu e reunion pa 7or di anochi.

Ora e reunion a continua, a bin dilanti como un solo team den un union grandi den Parlamento y a presenta un amienda en conhuntito, cual a wordo presenta pa sr. Dowers den number di tur parlamentario. Es decir, e amienda no ta pertenece na un of otro fraccion, pero di

tur fraccion den Parlamento. E amienda ta encera un reduccion di 25% di salario di parlamentarionan for di mei te cu december, inclusive e vakantiekering cu a wordo kita completamente. Pero tur parlamentario a expresa si cu si mester corta mas pa ta solidario cu ciudadanonan, nan ta dispuesto pa haci esaki. Adicionalmente, presupuesto di Parlamento tambe a wordo reduci cu aproximadamente 500 mil Florin cual tambe lo ta dirigi pa yuda den e situacion di crisis den cual nos ta na e momentonan aki.

Na momento cu a bay over na votacion pa loke ta trata e amienda y e ley, tur dos a pasa unanimamente cu 20 voto na favor y 0 contra.

Alan Howell a bisa cu e ta hopi contento con e reunion di siman pasa a bay, den cual a sobresali e union y cu un

nivel halto. “Nos mester ta ehempel, nos mester duna e ciudadanonan e sentimento cu tin representantenan di pueblo cu no solamente tin e crisis cu nos ta pasando aden den serio, pero nos pais mes tambe. Manera ma boga for di cuminsamento, mi ta kere cu e 25% ta unda nos mester ta y mi ta contento cu e reunion a termina tambe aprobando e 25% unanimamente”.

Finalizando el a recorda loke semper e ta bisa, cu si mester corta, nos mester cuminsa corta na e grandinan, nos no por corta na e chikitonan prome. E grandinan mester duna e ehempel y ora bo cuminsa na e grandinan e ora ey por bay na esnan chikito, mustrandocu ta solidario cu nan.

Booshi Wever (UPP):

‘E batacazo den e careda di cabay a lanta for di soño’

ORANJESTAD - Den cu-
alkier careda di cabay bo
tin ehemplarnan cu ta fa-
borito pa gana un careda,
pero tambe bo tin e asina
yama "batacazonan" cu
t'ey djis pa t'ey y tin bi-
aha di chiripa ta gana un
careda! Hopi biaha nan
ta resalta den un grupo di
perdedo. Pero manera tin
un dicho ta bisa: "tanten
cu nochi no cera, careda
di bina no a caba"! Y obvi-
amente e articulo di UPP
a stroba e fiestamento cu
e supuesto logro di e bata-
cazo di AVP den Parla-
mento, esta Dowers, cu
e 25% di corte di salario.
Algo cu pa mi ya tabata
previsto cu lo bay pasa mi-
rando cu e parlamentari-
onan, esnan cu y otronan
sin experiencia tabata bin
ta trata e topico salarial y
e crisis di COVID-19.

Pues e supuesto exito y tri-
unfo aki di AVP y Dowers
ta wordo laga na filingrana
cu loke UPP a trece dilanti.
Un biaha mas ta wordo dem-
ostra cu enbes di keda riba e
issue e batacazo Dowers kier
desvia atencion mustRANDO
asuntunan cu no ta kita nada
di loke UPP a trece padilanti.
Cada un punto cu el a trece
dilanti nos lo por refuta, un
pa un, pero no ta bale la pena.
Loke si ta resalta ta e hecho
cu e NO ta nenga cu con bay

bin e proposicionnan cu a ser
trece den Parlamento ta ac-
tonan di populismo!!

Loke cu UPP no ta compro-
nde dicon no ta reacciona
"zakelijk" riba e berdadero
pasonan cu mester ser tuma
pa trece un solucion durade-
ro, structural y realisabel!

Y nos kier djis mustra riba
kico lo por tabata e situa-
cion si e reglanan estricto di
"Good Governance" tabata
"in place" caba. Cu e regla-
nan aki vigente kisas e bata-
cazo Dowers lo no tabata tin
e minimo chance pa competi-
mes, corda pa gana e corona
pa ta e politico mas Populista!

Djis un par di ehempel: si
reglanan di Good Gover-
nance tabata vigente, un
ATA-bank lo no tabata t'ey,
na unda miyones a bai pa e
ex-colega di e batacazo Dow-
ers, algo cu por cierto e me-
sun Dowers a declara pub-
licamente. Asina tambe lo e
casi un BIYON di HOH lo
NO tabata posibel, hincando
asina nos pais den un debacle
financiero.

Si a bai di acuerdo cu e mo-
cion di mi na 2012 pa pone
den e ley di comptabilidad cu
pa desvia di cualkier destaho
mester di un LB enbez di un
MB, awe hopi otorgamento
di contractonan lucrativo pa

sponsornan y amigonan lo
no por a tuma lugar (reno-
bacionnan di scol, incinera-
tor chikito etc. etc.). Tambe
e gesto di parlamentario di
RED, Ricardo Croes, pa loke
ta su mocion, cu AVP no a
vota voor, lo no tabata nec-
esario, ya cu e cambio propo-
ni lo encera cu na momento
hasta di destaho bou man,
Parlamento mester wordo
envolvi debidamente y cu
Gobernador tambe lo tabata
un posicion mas clave, prome
cu patronahe politico tuma
luga. Den e solucion aki, lo
no stroba tampoco pa esnan
a yega na un gobierno, por
participa debidamente, sin ta
wordo privilegia.

Si a bay di acuerdo cu un otro
mocion cu e "schulddquote"
no por supasa 45% y e deficit
no por supasa 3%, awe Caft
lo NO tabata tey mes. Pero
tanto fraccionnan di AVP y
MEP a vota contra na 3 oca-
sion.

Si esakinan tabata "in place"
awe sigur e yudansa for di
Hulanda lo a bay mas facil,
debi na e confianza cu nan
tin den nos sistema y den nos
mandatarionan.

Ta p'esey un pregunta so
mi kier a haci na e batacazo
Dowers, ki dia bo ta presenta
un ley iniciativa cu ta encera
introduccion di TUR e ley-

nan pa percura cu Aruba lo
wordo goberna drechi? Ley-
nan entre otro riba financia-
mento di partidonan. Ley di
ombudsman y "klokkenluid-
ers". Ley di screening di po-
litionan, cu by the way na
2017 e batacazo Dowers, no
a percura pa para ora cu bay
regla e posicion di colega di
partido y di gobierno Paul
Croes. Y tanten cu e leynan
aki no bini, Aruba y e Aru-
biano lo keda ser ta e victima
y cu na final lo paga e cuenta,
manera pueblo ta pagando pe

awor.

Esakinan ta djis 3 puntonan
pa nos ilustra cu si nos deficit
real no mag supasa 3% y nos
"schulddquote" tabata na 45%,
awe facilmente kisas nos por
tabata tin un "buffer", "traha
dam warda awa", pa nos por
a supasa e retonan cu nos tin
awor cu e crisis aki. Y si esey
no lo tabata e caso mes, nos lo
por a haya un prestamo facil-
mente na un porcentahe hopi
abou of kisas hasta "schenk-
ing" di Hulanda.

Tampoko por lubida 3 fiesta
di apertura di Mike Eman y
Citgo unda a malgasta riba un
solo anochi cu "Destra" rond
1 miyon florin sin nunca e
Refineria a habri. Nos lo bin
bek riba esaki. Wel e con-

maximo capacidad di tur e

di "storage" cual facilmente
por trece un entrada di 5 mi-

abes banda di esaki lo sondea
interesadonan den Refineria.

Aunke den temponan hopi

Minister Dangui Oduber:

Gobierno lo controla si sector priva ta cumpli reglanan preventivo

ORANJESTAD – Recientemente durante conferencia di prensa minis-

ter di salud Dangui Oduber a bisa, cu na a momento cu reduci e medidanan actual ta esencial pa tur compania y nan empleado cumpli cu reglanan preventivo di COVID-19.

Minister Dangui Oduber a trece dilanti cu na luna di maart Gobierno a introduci medidanan general di control pa combati COVID-19 bou di e ordo Ministerial AB 1989 no.62. A bin cu e toque de queda, shelter in place, a cera e frontera tur esaki tabata pa evita cu e virus ta plama. Na momento cu reduci e medidanan aki ta hopi esencial pa tur dunado di trabou keda practica e medidanan di prevencion manera e distancia social y esun di higiena. E rekisitonan aki ta lo minimo cu e dunado di trabou mester cumpli cune pa por habri su establecimiento, si no cumpli cu esaki Departamento di Salud Publico lo cera e establecimiento.

E minister a menciona cu Aruba ta sigui e reglanan di prevencion cu ta wordo estableci door di WHO. Segun e profesionalnan e COVID-19 no ta bay di awe pa mañan y p'esey ta importante pa introduci tres medida cu dunadonan di trabou mester tene cuenta cune.

1) Medidanan pa garantisa e distancia social
Cada organisacion / empresa / institucion / dunado di trabou mester tuma e medi-

danan necesario pa tin e distancia social di minimo 1.5 meter entre e trahadonan y e cliente. Esaki ta pa garantisa e seguridad y salud di tanto e empleado y di e cliente. Tambe ta recomendabel pa e empleadonan traha for di cas y/of introduci orarionan di trabou mas flexibel, tur esaki si tin posibilidad.

2) Medidanan pa garantisa un bon higiena.

Cada organisacion / empresa / institucion / dunado di trabou mester tuma e medidanan necesario pa facilita y promove un bon higiena na nan establecimiento. Esaki ta pa garantisa e seguridad y salud di tanto e empleado y di e cliente.

3) Medidanan pa nenga entrada na empleadonan y clientenan malo na un establecimiento

Cada organisacion / empresa / institucion / dunado di trabou mester tuma e medidanan necesario pa garantisa cu no tin empleadonan of cliente cu tin problema di respiracion (tos, falta di sentido di holo, dolor di garganta) na e establecimiento. Esaki ta pa garantisa e seguridad y salud di tanto e empleado y di e cliente.

Minister Dangui Oduber a splica cu tur e medidanan aki ta pa pueblo su propio seguridad y ta bay tin control di parti di Gobierno pa sigura cu sector priva ta cumpli debidamente cu esakinan.

Aruba a haya fianza pa mantene empledonan na trabou

ORANJESTAD – Recientemente Minister Maduro hunto Minister Presidente y Minister di Labor a comparti e bon noticia cu Consejo di Minister di Reino a bay di acuerdo cu e peticion di Aruba pa brinda yudansa den forma di subsidio di salario. Consejo di Minister di Reino a aproba un fianza di 49.5 miyon florin sin pago di interes pa Pais Aruba pa haci e yudansa aki posibel. Cu e 'zachte lening' aki Gobierno por brinda yudansa na comercio pa nan por paga salario di nan trahadonan, mantene cupo di trabou y evita cu 37.000 persona keda sin un entrada debi na e crisis di COVID19.

Subsidio di salario

E subsidio di salario ta encera cu Gobierno ta brinda un yudansa financiero na e dunado di trabou pa por cubri un maximo di 60% di su gastonan di salario. Cu e subsidio aki e empresario por paga 80% di e salario di su trahadonan. E resto di 20% lo ta e aporte di e trahado cu un reduccion di oranan di trabou. E meta importante di e yudansa di Gobierno ta pa evita cu companianan ta kita e trahadonan for di trabou.

Informacion detaya

Durante siman di 4 di mei tur doño di trabou cu ta bin na remarke pa e subsidio di salario, lo ricibi un e-mail di SVB cu e informacion detaya con pa aplica pa e yudansa financiero cu Gobierno ta brinda

na comercio. Pa mas informacion por bishita e website di SVB www.svbaruba.org bou di MiSVB.

Danki na tur cu ta haci e yudansa aki posibel

Minister Xiomara Maduro ta gradici e Departamentonan di Gobierno cu a traha hopi duro pa haci e calculacionnan necesario y tambe ta gradici gremio comercial pa nan aporte. E mandatario a subraya cu esaki no ta un periodo facil y lo exige esfuerso mutuo, pasenshi, comprension y solidarismo di cada un di nos. Pais Aruba por ta sigura cu Gobierno ta trahando incansablemente pa por brinda alivio na Pueblo di Aruba durante e momentonan aki di e crisis di COVID19.

Incinerator no por start ainda debi cu techniconan no por a yega Aruba

ORANJESTAD - Status di incinerator chikito no a inicia ainda. E ta practicamente stagna. Y aunke e ta cla, pero debi na e situacion actual di lockdown y shelter in place, e techniconan cu mester a bin pa completa y caba cu e trabao aki no por a yega Aruba. Esaki a ocasiona cu tin un atraso, asina minister Marisol Lopez-Tromp a informa parlamento durante tratamiento di presupuesto di DOW.

Pa evita e congestionamento di desecho y kimamento den dump, el a bisa cu Serlimar y Ecogas ta trahando duro riba e mitigacion di e molester di huma. E ta haya cu esaki ta importante pa wordo percibi y sinti pa e habitantenan di e bisindario cerca di e dump.

Actualmente tambe nan tin un caso sumario caminda hues a indica cu mester atende cu e problematica di huma den dump. Aunke e

ta haya cu gobierno no por remedia e situacion full den tres luna un problema cu ta andando for di 60 aña pasa. Pero si nan ta haciendo e maximo esfuerso pa atende cu e problema di maneho di

sushi mas miho y completo posibel na bienestar di salud publico. Actualmente nan a bin cu un metodo otro pa kima desecho di plastic segun maneho di salubridad publico, y e ta

considera esaki como un mejoracion. Esaki compara cu e forma cu nan tabata haci prome.

E siguiente paso lo ta incinerator ora cu e ta cla pa su op-

eracion pa medio di temperatura halto y controlabel. E ta spera cu e procedura por ta cla lo mas lihe posibel denter di e normanan pa salud y medio ambiente y asina informa parlamento di dje.

Minister Dangui Oduber:

"Ta sinti straño pa haci e anuncio aki mientras mundo ta sufriendo cu un pandemia, y niun hende sa kico ta bin despues. Mi a pensa seriamente di retrasa e anuncio aki te ora cosnan bay bek na normalidad; sinembargo, esey no a sinti corecto, considerando con largo esunnan cu ta anticipa pa e buki aki a warda caba", Meyer a bisa den un declaracion. "Mi sa con hopi ami personalmente mester di distraccion na e momentonan aki, con hopi mi mester algo pa anticipa, y mas cu tur, con hopi mi mester buki pa lesa.

Pues mi ta spera cu e buki aki duna mi lesadonan un tiki placer pa anticipa, y despues di su yegada, e oportunidad pa biba den un mundo imaginario pa un tempo."

Meyer a bandona 'The Midnight Sun' mas cu un decada atras despues cu parti di e buki a leak online. Su serie 'Twilight' a bende mas di 100 miyon copia rond mundo y a wordo adapta den un frankisia popular di pelicula, cu Robert Pattinson como Edward y Kirsten Stewart como Bella Swan, e adolescente cu ta enamora di dje.

Pa varios luna tabata spera cu Waititi lo tuma e mando di e galaxia hopi, hopi leu, despues cu ya caba el a dirigi e final di e temporada di e spinoff di 'Star Wars', 'The Mandalorian'. JERUSALEM (AP) — Intel a bisa dialuna cu a cumpra e startup Israeli di movilidad urbano, Moovit pa \$900 milyon. E fabricante di chip basa na California a bisa cu e compra ta apoya su plan pa converti den un ‘proveedor completo di movilidad’.

E adkision ta profundisa alcanza di Intel na Israel, unda e compania a gasta biyones comprando otro companianan, y unda e tin un fabrica di traha chip.

Intel Corp. a paga \$15 biyion na 2017 pa Mobileye,

un compania Israeli den vanguardia di tecnologia di vehiculo autonomo. E compra aki a crea otro participante mayor den tecnologia autonomo y a reforsa prediccion cu autonan autonomo algun dia lo bin den cantidad grandi y cambia e forma con hende ta mobilisa.

Moovit lo join e team di Mobileye, acelerando su ‘habilidad pa revolucionar berdaderamente transporte’, Intel a bisa.

Cientificonan ta culpa strategia di pandemia di Reino Uni pa aumento di morto

LONDON (AP) — Mientras e coronavirus ta continua infectando hende na Reino Uni y probablemente lo resulta den e pio brote di Europa, gobierno a ricibi critica di cientificos, kende ta bisa cu a negligha lo fundamental di control di epidemia.

Centenares di expertonan di brote a cuestiona e respuesta di Reino Uni na e pandemia, ridiculizando e declaracion di gobierno cu ta ‘siguiendo e ciencia’.

“Tabatin un sentido di fatalismo y mi ta kere cu gobierno a descarta opcionnan di contencion cu no mester a descarta”, segun Martin McKee, profesor di salubri-

dad publico Europeo na London School of Hygiene and Tropical Medicine. “Y awo nos mester deal cu e consecuencianan.”

E consecuencianan ta inclui un cantidad di morto cu awo a alcanza 28,446. Esey ta tiki menos cu Italia, e pais mas afecta di Europa cu 28,884 morto confirma. Pa varios siman, Reino Uni tabata enfoca riba test amplio, cu meta di conduci 100mil test di COVID-19 pa dia pa fin di april. A logra e meta, pero a faya di tene e cantidad na e nivel aki. Expertonan di epidemia a adverti cu e enfoka abrumador di Reino Uni riba test a ignora un elemento igualmente esencial di control di brote: track y isolacion di contac-

tonan di caso.

Esaki ta sigui un respuesta ya retrasa na e pandemia. Mientras WHO a declara e coronavirus un emergencia global dia 30 di januari, tabata te na dia 5 di maart cu Reino Uni a haci e malesa ‘notificabel’ rekeriendo dokternan pa reporta.

Departamento di Salud Britanico recientemente a bisa cu lo train 18mil persona pa track contacto di caso pa monitor transmision di e virus, y tabatin meta pa pone nan den funcion pa mita di mei. Pero no a revela detaye di con e programa lo traha. Un falta di precision asina, expertonan ta preocupa, por conduci na un segundo ola di

brote devastador.

David McCoy, profesor di salubridad publico global na Queen Mary University of London a bisa cu e respuesta di pandemia di Reino Uni tabata demasiado influencia pa modelo matematico na luga di intervencionnan estableci pa brote. E problema ta cu nan ta djis produci escenario basa riba suposicion cu por ta corecto of fout, y no bisa kico mester haci, el a bisa. A implementa lockdown na Reino Uni e dia despues cu modelonan a sugeri cu por tin 250mil morto den e ‘best case scenario’.

Departamento di Salud a rechasa preocupacionnan tocante e validez di su strategia, bisando cu ta ‘guia na tur

momento pa e miho conseho cientifico’.

Pero Annelies Wilder-Smith, experto di salubridad publico na London School of Hygiene and Tropical Medicine, a bisa cu ta preocupante cu Reino Uni no tin plan pa retira contacto di casonan for di comunidad den facilidadnan special, similar na China y Singapore. “Si bo no isola e contactonan cu por tin e malesa, nan lo djis keda cas y infecta nan amigo y famia”, el a bisa.

Mayoria di pais occidental a nenga di considera politicanan di intervencion asina, y algun experto ta bisa cu e rechaso aki ta dunando impulso na transmision di virus.

American public space, rebooted: What might it feel like?

Continued from Front

"But people need a structure. They need to be told there's something greater." Enter the "institution," a word with multiple personalities — some truly public, some partially public, some purely commercial. All figure in this mid-virus re-engagement. All are part of the web of public trust, and all have a tone to set.

"Institution" means government buildings — post offices and courthouses and DMVs. It means town squares and public parks, churches and nursing homes and college campuses and, of course, hospitals.

It can also mean skyscraper lobbies, shopping malls, hotels, big-box stores and supermarkets — the touch points of a consumer society whose open, public operation means a society is edging toward normal.

Eric Martin, a Bucknell University associate professor of management who studies disaster responses, cites an established place like Katz's, the crowded New York deli made famous in "When Harry Met Sally." How business like that act, he says, will speak volumes.

"It doesn't change quickly. It's been around forever. That's what it means to be an institution. And so we allow these places a legitimacy that we might not with other places," Martin says.

"We think those are legitimate organizations. So if they're doing it, if they're changing, we say, 'Oh, this is real,'" he says.

Something else unites these places. In each, the woman on the next bench, the man ahead in the checkout line, the family down the pew are suddenly potential vectors — or potential victims. So we're assessing the public realm in the way we assess a salad bar when we walk into a restaurant.

That can impede a free so-

ciety's functions in ways not yet fathomed.

"Democracy depends to a surprising extent on the availability of physical, public space, even in our allegedly digital world," John R. Parkinson writes in "Democracy and Public Space: The Physical Sites of Democratic Performance." The digital world has kept many institutions going in the United States since mid-March. It has allowed an approximation of office life to continue. It has, along with a robust supply chain, brought to our doors some of the goods we usually go and get.

But those same functions, paired with unease, could work against the return to public spaces.

"Technology is reshaping what it means to be in a public place," says John R. Stilgoe, a historian and landscape expert at Harvard who has spent his career exploring and chronicling the landscapes where Americans move around.

"How do you define the 'public realm' when an enormous percentage of the American public spends the majority of its day in its pajamas?" Stil-

goe says. Already, there are hints of what institutions and the spaces they occupy could look like. If even some come to pass, they could alter Americans' relationship with the public realm.

— Vibrating pagers like those used at chains like Red Lobster. Already some hospitals are handing them out; instead of entering a lobby, wait in the car until you buzz.

— Arrows on the ground, and other physical markers to encourage and enforce distance. Imagine sidewalks with scoring every 6 feet (2 meters) so those walking could make sure they're the human equivalent of a few car lengths behind. Or large sculptures deployed to separate people.

— New designs for eating places. McDonald's is already prototyping a socially distanced version of its restaurant that could be a template for fast-food spaces around the world.

— Checkerboard grids on the grass in parks, with people allowed to occupy one square only if those surrounding it are empty. Or time-sharing of public pla-

ces: If you don't show up for your 12:15 p.m. slot at the playground, you're out of luck.

— Churches holding services in shifts. Ballparks and movie theaters deliberately keeping seats empty, halving attendance. A bit dystopian? Maybe. But there are warmer alternatives, too.

Nan Ellin, dean of the college of architecture and planning at the University of Colorado Denver, is working with her students and the city to close some restaurant-heavy blocks to traffic so the street can be used as outdoor cafes and "the tables can be farther apart from one another."

"We don't want to lose our public ground. But we want to have a safe public ground," says Ellin, editor of "Architecture of Fear" and author of "Good Urbanism: Six Steps to Creating Prosperous Places." She adds: "We need little hooks to get there so people can start to be with one another again in a way that feels safe."

Architecture has always dictated behavior. In China, where controlling people is a government priority, Beijing's avenues are lined with metal fences just high enough to keep people on sidewalks.

The sprawling, segmented

layout of Pakistan's capital city was designed in part to discourage mass gatherings.

But those are public spaces responding to visible threats. Retooling spaces to an invisible virus — the crux of what American institutions face today — is different.

Will we wear masks in banks, where a masked man means something different? Will the DMV, the butt of a thousand long-line jokes, suddenly lack lines? Will we retreat to our cars, bypassing public space entirely in what Cusick calls "people moving from bubble to bubble, like the Jetsons"?

In 1943, after a German bombing of the British Parliament, Winston Churchill advocated rebuilding the House of Commons chamber exactly as it had been. He invoked the importance of the physical institution in preserving national ideals. "We shape our buildings," he said, "and afterwards our buildings shape us."

As isolation ebbs, a similar question confronts Americans repopulating the public places they share. How will these places reshape society — and how will trepidations about a post-isolation world shape them in turn? We can only go so far.

"You cannot hold the air to yourself. The air is shared," says Marci J. Swede, dean of the school of education and health sciences at North Central College in Illinois.

"'No man is an island' has no more truth than when we're talking about the air we're breathing," she says. "And it's hard to be around other people when you don't have that sense of trust." □

Zoos turn to social media to delight, raise money amid virus

By **TERRY TANG**

Associated Press

PHOENIX (AP) — The Phoenix Zoo, struggling like others worldwide during coronavirus closures, has found an unlikely savior in a sloth. While Fernando may be a slow mover offline, the 4-year-old Linne's two-toed sloth has risen rapidly on the internet. Since Fernando joined Cameo, a video-sharing platform where people pay for celebrity shoutouts, the zoo has received 150 requests for a personalized clip. His popularity let the zoo boost his fee from \$25 to \$50.

"I think we've gotten more creative, kind of thinking a little bit outside the box. We're trying things we never have before," said Bert Castro, Phoenix Zoo's president and CEO.

Social media is one way zoos worldwide are engaging with people who can no longer visit — their main source of income — and raise some much-needed cash. Zoos and aquariums have brought adorable distraction by posting photos and videos of animals, but the closures mean they're still in jeopardy. While a smattering of zoos, from Utah to Germany, have started reopening with social distancing rules, there's no telling when they will reach their usual levels of

visitors and revenue.

Besides jobs, the well-being of the animals is at stake.

"They can't just send their employees home and turn off the lights and lock the doors. They have to care for animals," said Dan Ashe, president of the Association of Zoos and Aquariums.

The association's 220 U.S. zoos and aquariums, which typically host a combined 200 million people annually, all closed, Ashe said. A recent survey showed more than 60% have laid off or furloughed employees.

About 60% of its members have applied for loans through the federal coronavirus relief package intended to limit layoffs at small businesses and non-profits.

The Phoenix Zoo, a \$1 million-a-month operation, has been losing \$80,000 a day since shuttering March 18, Castro said. The facility in the nation's fifth-largest city has been approved for \$2.7 million in loans under the federal program and has raised hundreds of thousands online for its 3,000 animals.

Castro believes behind-the-scenes Facebook Live videos make people feel more connected to the zoo. In the past month, viewership has spiked 350%, and its Instagram following is growing. Fernando's Cameo appearances may be a tiny boost, but "it's so popular we'll continue it for as long as we can," Castro said.

The Oakland Zoo in the San Francisco Bay Area recently brought back more than 200 full-time employees — at least until June — after getting loans under

the federal program. It also started an online subscription program offering daily behind-the-scenes videos with animals and zookeepers. It's \$14.95 a month; \$9.95 for zoo members.

"Our objective is to just make it to the point where they allow us to reopen for business and the people can come and enjoy the animals," zoo president Joel Parrott said.

The Toronto Zoo is live-streaming moments like weigh-ins of red pandas, drawing tens of thousands of new social media followers, spokeswoman Amanda Chambers said. The strategy also helps spotlight lesser known animals.

"It's the opportunity to highlight species that often don't get high-profiled," CEO Dolf DeJong said. "For us, it's being able to talk about Blanding's turtles, an endangered species from our community that we're breeding."

California's Monterey Bay Aquarium is captivating people by live-streaming African penguins and sharks. It also created YouTube "MeditOceans" videos for meditating to sights and sounds of ocean creatures. Divers jazzed up their kelp forest maintenance routine with a dance to the Sugarcane Gang's "Jump On It" in a popular video. □

Carnival to resume cruises in summer when virus order ends

Carnival Cruise ships are docked at the Port of Tampa Thursday, March 26, 2020, in Tampa, Fla.

The Associated Press

MIAMI (AP) — Carnival Cruise Line announced Monday it will start cruising again, from Florida and Texas, beginning in August. These Caribbean trips are the first announced by one of the major cruise lines since the coronavirus pandemic forced a near-total pause in the global cruise industry.

The ports of Miami, Cape Canaveral and Galveston, Texas were selected because they are accessible by car for the majority of the guests, the company said in a statement. The eight ships named by the company have itineraries

showing stops in the Bahamas, the Cayman Islands, Jamaica and Mexico, among other places.

Carnival Cruise Line said ships will not be cruising from Alaska, Hawaii and Australia through Aug. 31. The State Department began warning against cruise travel on March 8, and the CDC issued a no-sail order on March 14, which was extended and set to expire on July 24.

The order prompted several countries, including some in the Caribbean, to reject cruise ships suspected of carrying infected passengers and crew members, stranding some ships at sea for weeks.

Many cruise ships had outbreaks at sea, with some passengers and crew members dying on board or after disembarking from international trips.

The CDC says infectious diseases can easily spread when crew members from a ship with an outbreak transfer to other ships. The health agency says outbreaks of COVID-19 on cruise ships pose a risk because they can spread the disease into communities across the world after disembarkation.

Carnival Cruise Line has not revealed what measures is taking to prevent future outbreaks once it resumes sailing. □

World leaders pledge billions for virus vaccine research

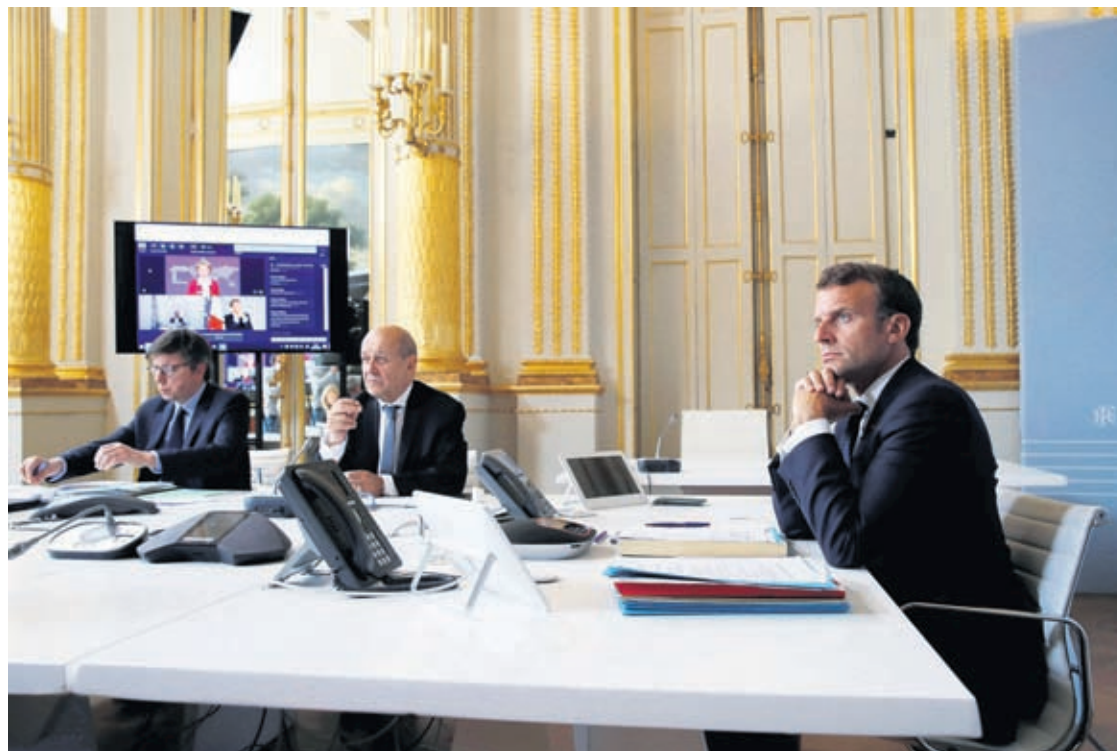

By LORNE COOK

Associated Press

BRUSSELS (AP) — World leaders, organizations and banks on Monday pledged 7.4 billion euros (\$8 billion) for research to find a vaccine against the new coronavirus, but warned that it is just the start of an effort that must be sustained over time to beat the disease. The funds, pledged at a video-conference summit hosted by the European Union, fell marginally short of the 7.5 billion euros being sought, but more money could arrive in coming days. Notably absent from the event was the United States, where more than 67,000 people have died, and Russia.

Despite the shortfall, U.N. Secretary-General Antonio Guterres said, the target being sought Monday to help find a vaccine, new treatments and better tests for the disease would only ever amount to a "down-payment" on the tools that will be needed to fight the virus. "To reach everyone, everywhere, we likely need five times that amount," Guterres said.

Governments have reported around 3.5 million infections and more than 247,000 deaths from the virus, according to a count by Johns Hopkins University. But deliberately concealed outbreaks, low testing rates

and the strain on health care systems mean the true scale of the pandemic is much greater.

People in many countries across the globe, and notably in Europe this week, are cautiously returning to work but authorities remain wary of a second wave of infections, and a vaccine is the only real golden bullet to allow something like normal life to resume.

"In the space of just a few hours we have collectively pledged 7.4 billion euros for vaccines, diagnostics and treatments," European

Commission President Ursula von der Leyen said, wrapping up the event after three hours. "All this money will help kick-start unprecedented global co-operation."

The original aim was to gather around 4 billion euros (\$4.37 billion) for vaccine research, some 2 billion euros for treatments and 1.5 billion (\$1.64 billion) for testing.

The pledges were hard to track, beyond coming in various currencies. Some countries announced money for their own national

research efforts combined with those they would offer to international organizations. Others also proposed a mix of loans with their funding. Pledges made toward vaccine research since Jan. 30 were also counted.

Apart from many European leaders, heads of state and government from Australia, Canada, Israel, Japan, Jordan, South Africa and Turkey spoke at the event, along with China's EU ambassador.

President Emmanuel Macron warned that "a race

against time is underway," as he donated 500 million euros on behalf of France. Apart from many European leaders, heads of state and government from Australia, Canada, Israel, Japan, Jordan, South Africa and Turkey were also due to speak, along with China's EU ambassador.

British Prime Minister Boris Johnson said that "the race to discover the vaccine to defeat this virus is not a competition between countries, but the most urgent shared endeavor of our lifetimes."

Among the larger contributions, Japan pledged more than \$800 million while Germany offered 525 million euros. Italy and Spain, perhaps the hardest hit by the virus in Europe, each said they would provide more than 100 million euros. Switzerland, the Netherlands and Israel also pledged 378 million euros, 192 million euros and 60 million dollars, respectively.

Melinda Gates, Co-Chair of the Bill and Melinda Gates Foundation, said that beating the virus "will take more than making a vaccine available to the very highest bidder. It is going to take more than delivering it only to people in wealthy nations. The pandemic won't end until people everywhere can be immunized against it." □

Sharansky to use Genesis Prize proceeds to fight coronavirus

By JOSEF FEDERMAN

Associated Press

JERUSALEM (AP) — Former Soviet dissident Natan Sharansky, winner of the 2020 Genesis Prize, announced Monday that he will donate the \$1 million award to organizations fighting the coronavirus pandemic and assisting people most affected by the outbreak.

In a statement released by prize organizers, Sharansky said he would support organizations in Israel and abroad, some delivering immediate relief to victims and others pursuing longer-term research against the disease.

In forgoing the prize money, he follows a tradition set by previous winners.

"Many people of good will around the world have given generously to help organizations and individuals who have been devastated by COVID-19. I am grateful to have the opportunity to contribute to this humanitarian effort," Sharansky said.

The Genesis Prize Foundation said donations would go to organizations providing emergency services to Jerusalem residents of all faiths, and assisting severely disabled children, domestic violence victims, African migrants in Tel Aviv

and people in need of mental health services.

He will also support research at Israel's Weizmann Institute of Science, Columbia University and New York University, and help elderly Jewish communities overseas.

Sharansky rose to prominence in the 1970s as a dissident in the Soviet Union, where he worked closely with the human rights activist and Nobel Peace Prize winner Andre Sakharov.

He was a founding member of the Helsinki Group, which monitored rights abuses by the Soviets, and became one of the best-

Brussels going greener amid coronavirus crisis

By **SAMUEL PETREQUIN**

Associated Press

BRUSSELS (AP) — As European cities gradually relax lockdown measures, Brussels authorities intend to take advantage of the coronavirus health crisis to turn the Belgian capital into a bicycle-friendly greener place.

Belgium started the first phase of exiting the lockdown Monday as some businesses were allowed to re-open and public transport resumed a regular service. To avoid a new spike in the number of infections, the use of masks in trams, buses and metros has been made mandatory, while commuters are being encouraged to walk and use their bikes if they have to go to work in a city where traffic jams are the norm.

Belgium has been hard-hit by the deadly virus, with nearly 8,000 death recorded since the start of the pandemics.

"If you compare Brussels to other cities, we see that the bike is not really used a lot," Brussels' regional mobility minister Elke Van den Brandt told The Associated Press on Monday near a construction site where an old cobblestone lane is be-

ing turned into a slick asphalt road suited for bikes. The refurbishment work is part of a project aimed at transforming 40 kilometers (25 miles) of car lanes into cycle paths that will be connected to the existing bike network.

"I really find it interesting because, especially leading to Brussels, it lacks a lot of cycle paths," said Ernest

Georgin, a regular bike user. "And since it is likely to be a means of transport of the future, a practical green transport which does not make any noise and which, moreover, allows people to exert themselves, frankly, I find this an excellent initiative."

The plan isn't unique to Brussels. Cycling activists from around the world are trying

to use the moment to get more bike lanes, or widen existing ones, even if it's just a temporary measure to make space for commuters on two wheels.

Van den Brandt, a member of the Greens party, said the main reason people don't cycle in Brussels is the lack of safe infrastructure. She said some of the bike lanes currently set up

are only temporary, but she hopes the plan will be made permanent once authorities get all the construction permits required.

"Because it's really key for a healthy city that you can walk, that you can cycle in a safe way," she said.

In the immediate future, she said it's crucial more bike paths are available as an alternative to cars and public transports by September, when she expects a further easing of the lockdown, with more shops opening their doors and the majority of children going back to school.

In addition to the bike lanes project, speed is being limited to 20 kph (about 12 mph) in the pentagon-shaped Brussels center and other areas covering 100 kilometers (around 60 miles) of roads where pedestrians have priority and are allowed the entire width of streets to abide by social distancing measures.

"It's something that was really met with a lot of enthusiasm in all kinds of areas," Van den Brandt said. "We saw that everywhere people are happy to have more place. It's really important to give the city back to the people." □

Puerto Rico files fiscal plan, rejects austerity measures

City workers, wearing protective face masks as a precaution against the spread of the new coronavirus, remove debris caused by a 5.4-magnitude earthquake, in Ponce, Puerto Rico, Saturday, May 2, 2020.

Associated Press

By **DANICA COTO**

Associated Press

SAN JUAN, Puerto Rico (AP)

— Puerto Rico's government said Monday it has asked a federal control

board to delay austerity measures for at least two years and warned it doesn't have enough money to pay bondholders as it struggles with the costs of recent

earthquakes, the COVID-19 crisis and the aftermath of hurricanes Irma and Maria. Officials said that they submitted a revised fiscal plan requested by the board that oversees the island's finances and said the U.S. territory is bracing for billions of dollars in losses as a result of shrinking tax revenue and a drop in tourists, among other factors.

The filing came as the U.S. Federal Emergency Management Agency announced it was extending its suspension of field operations related to a series of earthquakes due to a coronavirus lockdown.

A magnitude 5.5 earthquake on Saturday caused damage in several southern towns, continuing a string of quakes that began in late December and

have caused an estimated \$1 billion in damage.

The government cited those costs, as well as an upcoming hurricane season that is expected to be more active than usual and a COVID-19 crisis that officials estimate will have a \$5.7 billion impact on the economy in its request for a delay in austerity measures. "Puerto Rico must be realistic and prudent in conserving its resources in preparation for unknown and unexpected events that are becoming increasingly inevitable," the plan states. The federal control board did not immediately respond to a request for comment.

It's unclear whether it would accept the proposed changes, which include a rejection of pension cuts

sought by the board. Last week, the board ordered that Puerto Rico's municipalities pay a total of \$66 million owed to the central government despite some mayors warning that such a move would leave them bankrupt.

Omar Marrero, executive director of the Puerto Rico's Fiscal Agency and Financial Advisory Authority, said in a statement that he hopes to reach "reasonable agreements" with the board in upcoming weeks regarding the revised fiscal plan.

The plan was filed on Sunday, exactly three years after Puerto Rico filed for the biggest U.S. municipal bankruptcy ever after announcing it could not pay its more than \$70 billion public debt load. □

European virus tracing apps highlight battle for privacy

By **KELVIN CHAN**
AP Business Writer

LONDON (AP) — Goodbye lockdown, hello smartphone.

As governments race to develop mobile tracing apps to help contain infections, attention is turning to how officials will ensure users' privacy. The debate is especially urgent in Europe, which has been one of the hardest-hit regions in the world, with nearly 140,000 people killed by COVID-19. The use of monitoring technology, however, may evoke bitter memories of massive surveillance by totalitarian authorities in much of the continent.

The European Union has in recent years led the way globally to protect people's digital privacy, introducing strict laws for tech companies and web sites that collect personal information. Academics and civil liberties activists are now pushing for greater personal data protection in the new apps as well.

Here's a look at the issues.

WHY AN APP?

European authorities, under pressure to ease lockdown restrictions in place for months in some countries, want to make sure infections don't rise once confinements end. One method is to trace who infected people come into contact with and inform them of potential exposure so they can self-isolate. Traditional methods involving in-person interviews of patients are time consuming and labor intensive, so countries want an automated solution in the form of smartphone contact tracing apps. But there are fears that new tech tracking tools are a gateway to expanded surveillance.

EUROPEAN STANDARDS

Intrusive digital tools employed by Asian governments that successfully contained their virus outbreaks won't withstand scrutiny in Europe. Residents of the EU cherish their privacy rights so compulsory apps, like South Korea's, which alerts authorities if users leave their home, or location tracking wristbands,

A soldier of the Swiss army wearing a protective face mask holds a smartphone with an app using Decentralized Privacy-Preserving Proximity Tracing (DP-3T) during a test with 100 soldiers in the military compound of Chamblon near Yverdon-les-Bains, Switzerland, Thursday, April 30, 2020. Associated Press.

like those used by Hong Kong, just won't fly.

The contact-tracing solution gaining the most attention involves using low energy Bluetooth signals on mobile phones to anonymously track users who come into extended contact with each other. Officials in western democracies say the apps must be voluntary.

RIVAL DESIGNS

The battle in Europe has centered on competing systems for Bluetooth apps. One German-led project, Pan-European Privacy-Preserving Proximity Tracing, or PEPP-PT, which received early backing from 130 researchers, involves data uploaded to a central server. However, some academics grew concerned about the project's risks and threw their support behind a competing Swiss-led project, Decentralized Privacy-Preserving Proximity Tracing, or DP3T.

Privacy advocates support a decentralized system because anonymous data is kept only on devices. Some governments are backing the centralized model because it could provide more data to aid decisionmaking, but nearly 600 scientists from more than two dozen countries have signed an open letter warning this could, "via mis-

sion creep, result in systems which would allow unprecedented surveillance of society at large."

Apple and Google waded into the fray by backing the decentralized approach as they unveiled a joint effort to develop virus-fighting digital tools. The tech giants are releasing a software interface so public health agencies can integrate their apps with iPhone and Android operating systems, and plan to release their own apps later.

The EU's executive Commission warned that a fragmented approach to tracing apps hurt the fight against the virus and called for coordination as it unveiled a digital "toolbox" for member countries to build their apps with.

BEYOND BORDERS

The approach Europe chooses will have wider implications beyond the practical level of developing tracing apps that work across borders, including the many found in the EU.

"How we do this, what safeguards we put in, what fundamental rights we look very carefully at," will influence other places, said Michael Veale, a lecture in digital rights at University College London who's working on the DP3T project. "Countries do look to Europe and campaign-

ers look to Europe," and will expect the continent to take an approach that preserves privacy, he said.

COUNTRY BY COUNTRY

European countries have started embracing the decentralized approach, including Austria, Estonia, Switzerland, and Ireland. Germany and Italy are also adopting it, changing tack after initially planning to use the centralized model. But there are notable exceptions, raising the risk different apps won't be able to talk to each other when users cross Europe's borders.

EU member France wants its own centralized system but is in a standoff with Apple over a technical hurdle that prevents its system from being used with iOS. The government's digital minister wants it ready for testing in "real conditions" by May 11 but a legislative debate on the app was delayed after scientists and researchers warned of surveillance risks.

Some non EU-members are going their own way. Norway rolled out one of the earliest - and most invasive - apps, Smittestopp, which uses both GPS and Bluetooth to collect data and uploads it to central servers every hour.

Britain rejected the system Apple and Google are de-

veloping because it would take too long, said Matthew Gould, CEO of the National Health Service's digital unit overseeing its development. The British app is weeks away from being "technically ready" for deployment, he told a Parliamentary committee. Later versions of the app would let users upload an anonymized list of people they've been in contact with and location data, to help draw a "social graph" of how the virus spreads through contact, Gould said. □

Coverage of Alaska policing, Kashmir crackdown win Pulitzers

By JENNIFER PELTZ

Associated Press

NEW YORK (AP) — The Anchorage Daily News and ProPublica won the Pulitzer Prize in public service Monday for illuminating public safety gaps in Alaska, revealing that a third of villages had no police protection.

The “riveting” series spurred legislative changes and an influx of spending, the judges noted in an announcement postponed several weeks because of the coronavirus pandemic. The New York Times won the investigative reporting prize for an expose of predatory lending in the New York City taxi industry and also took the international reporting award for what the judges called “enthraling stories, reported at great risk,” about Russian President Vladimir Putin’s government.

The Times also was awarded the commentary prize for an essay that Nikole Hannah-Jones wrote as part of the paper’s ambitious 1619 Project, a wide-ranging examination that followed the throughlines of slavery in American life to this day. The Washington Post’s work on the environmental effects of extreme temperatures was recognized for explanatory reporting.

In a development that recognized how podcasting has brought new attention to reporting aimed at listeners rather than readers or viewers, a first-ever award for audio reporting went to “This American Life,” the Los Angeles Times and Vice News for “The Out Crowd,” an examination of the Trump administration’s “remain in Mexico” immigration policy. The judges called the reports “revelatory, intimate journalism.”

In another prize for the Los Angeles Times, Christopher Knight won the criticism award for what the judges called “extraordinary community service by a critic” in examining a proposal to overhaul of the L.A. County Museum of Art.

tucky, took the breaking news reporting award for unpacking racial disparities and other issues in a spate of governor’s pardons.

Two different projects — ProPublica’s look at deadly accidents in the U.S. Navy and The Seattle Times’ examination of design flaws in the troubled Boeing 737 MAX jet — won the national reporting award.

The local reporting award went to The Baltimore Sun for shedding light on a lucrative and previously undisclosed financial relationship between the mayor and the public hospital system, which she helped oversee.

The New Yorker took the feature reporting prize for Ben Taub’s piece on a

detainee at the U.S. military base at Guantanamo

Bay, Cuba, with judges saying the story offered “a nuanced perspective on America’s wider war on terror.” New Yorker contributor Barry Blitt got the editorial cartooning award for work that “skewers the personalities and policies emanating from the Trump White House,” as the judges saw it. The Associated Press won the feature photography prize for images made during India’s clampdown on Kashmir, where a sweeping curfew and shutdowns of phone and internet service added to the challenges of showing the world what was happening in the re-

gion of 7 million people.

AP photographers Dar Yasin, Mukhtar Khan and Channi Anand snaked around roadblocks, sometimes took cover in strangers’ homes and hid cameras in vegetable bags to capture images of protests, police and paramilitary action and daily life. Then they headed to an airport to persuade travelers to carry the photo files out with them and get them to the AP’s office in New Delhi.

Reuters won the breaking news photography award for its coverage of protests that shook Hong Kong.

In the arts categories, Michael R. Jackson’s musical “A Strange Loop,” about a man trying to write a musical, won the drama prize. And Colson Whitehead’s “The Nickel Boys” won the fiction prize; he also won in 2017 for “The Underground Railroad.” The initial Pulitzer ceremony, which had been scheduled for April 20, was pushed to give Pulitzer Board members who were busy covering the pandemic more time to evaluate the finalists.

The awards luncheon that is traditionally held at Columbia University in May will be postponed, as well. Details of a fall celebration will be announced at a later date, the Pulitzer Board said.

The Pulitzer Prizes in journalism were first awarded in 1917 and are considered the field’s most prestigious honor in the U.S. □

Ajudo na Aruba: Volunteers reach out to feed the Arubans in need

ORANJESTAD — “My name is Annelot Muijres and I live on Aruba with my family. I got the idea to start Ajudo na Aruba after many stories surfaced of people not having any food to eat, including families with newborn babies.” This is the story behind the volunteer organization Ajudo na Aruba in a nutshell.

The foundation's name means Help Aruba and that is exactly what they are doing on our island that has been affected enormously by the COVID-19 crisis. The founder of Ajudo na Aruba started preparing home-cooked meals from her home, but she soon realized this was not enough. Therefore she started this project to be able to help more families in need, not only providing meals or groceries, but also basic necessities like diapers, baby formula, soap etc.

“We are doing this all with love and the help of our fantastic volunteers. We thank you all from the bottom of our hearts. The project depends on the tremendous effort of their

volunteers as they make this project a success.

They work long days and take precious time away from their families to help Ajudo na Aruba reach out. If you would like to join their fantastic team, please contact the organization through the contact page on their website

<https://www.ajudonaaruba.com/contactand> they will reach out to you.

Ajudo na Aruba is run completely by donations, whether it's food or money (to buy food), diapers, formula or even toys and clothing, every single item donated is valuable to them. Aruba's nature is to be cherished

ST. CRUZ — The national park Arikok is managed by the Foundation National Park Arikok (FNPA) and comprises almost 18 % of the island. Its rugged terrain, desert-like hills filled with tall cacti, breathtaking coastline and protected local flora and fauna welcome you to be explored. There is numerous wildlife to discover like for example the sea turtle who lays his eggs on the park's beaches, indigenous reptiles include the cascabel, the santanero or Aruban Cat-eyed snake and the kododo blaw or Aruban whiptail lizard. Birds include the shoco or Aruban burrowing owl and the prikichi or Aruban parakeet. First designated as an important national area in the 1980s, Arikok National Park is home to popular hiking trails, covering all kinds of terrain from hills to gold mines, and even plantation ruins. In the national park some traditional Aruban houses in the cas di torto style can be visited.

Boa

Although Parke Nacional Arikok is temporarily closed for motorized vehicles and tours, their Park Rangers continue surveilling the protected areas of Parke Nacional Arikok and Ramsar Site Spaans Lagoen. Additionally, our island-wide Boa service is still in full operation. Since the Coronavirus lockdown, we have seen a remarkable increase in the number of calls from the community requesting assistance of the park's Boa service. If you need assistance then please message them through Facebook messenger and a Park Ranger will contact you. It is important to remain calm and keep a close eye on the Boa until the Park Ranger arrives at your address/location for assistance.

In an effort to conserve our native species, FPNA is conducting long-term research on the invasive Boa's distribution, diet, and health.

Through FPNA's Boa service, the Park Rangers collect and humanely euthanize boas. The Research & Conservation Department then measures and dissects the Boas to assess their organs. The acquired data will provide a better understanding of the Boa population on the island. This research is done in collaboration with Dr. Jeff Goessling from Eckerd College in Florida.

Recognize snakes

FPNA strives to create awareness amongst the community on the different snakes that reside in Aruba. As you may be spending more time in your garden during the current crisis, it is crucial to recognize our native species and the invasive species. The most common snake that you can encounter in your garden is the Santanero, native to Aruba and Venezuela. A Santanero in your garden will keep away the insects, toads, frogs and lizards.

Our Santanero is smaller than 50 centimeters, has a dark and light brown-banded pattern and a plain white belly. Its head is round or oval-shaped. If you encounter a Santanero around your garden, please do not harm this species.

The Boa constrictor, an invasive species, was introduced to Aruba and is consuming much of our local fauna. The most distinctive feature of a Boa is its pattern of dark brown and tan blotches which become red toward the tail.

The belly is white or cream-colored with numerous black spots. If you encounter a Boa around your garden, please make sure that it is a Boa and not a Santanero. If you have any doubt send FPNA a photo through their Facebook messenger to verify the species. In case it is a Boa, a Park Ranger will contact you.

The Arikok Park is closed until further notice due to the Corona crisis, for more information you can visit their Facebook page and website. □
